

KjelDigester K-446 / K-449

Pre-installation Checklist

The following checklist will assist you in site preparation for your BUCHI instrument. Careful attention to the requirements presented in this document will help simplify instrument installation and ensure that the instrument operates as it was designed.

KjelDigester K-446 / K-449

Pre-installation checklist

All appropriate items in this checklist must be completed, signed and returned to BUCHI. Return your checklist as soon as your laboratory is ready and functional for prompt installation of your KjelDigester Unit. If you are performing self-installation, please check the box on page 4 and return the form to BUCHI.

Environmental requirements

Ambient temperature of 5 °C to 40 °C.

Relative humidity $\leq$ 80% (up to 31 °C).

The KjelDigester should be placed in a fume hood for secondary containment.

Space requirements

Enough space as defined below: (Width x Depth x Height).

For the KjelDigester K-446: 475 x 525 x 765 mm.

For KjelDigester K-449: 475 x 560 x 765 mm.

Allow additional space for drying attachments.

Allow additional space around the instrument for a comfortable working environment, preparing samples, solvent & waste bottle, etc. Take into account any additional obstacles in the area such as gas taps, water taps, drains, sloping ceilings in enclosures, etc.

Location of the unit

Place the KjelDigester on a clean, level, vibration free surface.

Power requirements

The KjelDigester requires its own 220–240 V $\pm$ 10% 50/60 Hz mains outlet socket.
A standard mains cable is supplied.

Detailed Technical requirements

I have reviewed the detailed Technical Data on www.buchi.com/en/support/downloads
My facility fulfills the required specifications.

KjelDigester K-446 / K-449

Pre-installation checklist

Other requirements

Reagent requirements:

- Titanium Kjeldahl Tablets, Qty: 1000 (Order No: 11057980).
- Missouri Kjeldahl Tablets, Qty: 1000 (Order No: 11057982).
- ECO Kjeldahl Tablets, Qty: 1000 (Order No: 11057983).
- Titanium Micro Kjeldahl Tablets, Qty: 1000 (Order No: 11057981).
- Copper Micro Tablets, Qty: 1000 (Order No: 11057985).

NB only one of the above mentioned tablets is needed based on your application:

- Antifoam Tablets, Qty: 1000 (Order No: 11057984). Should be considered when encountering a sample that foams during digestion.
- Sulphuric acid 98%.
- Glycine, Tryptophan or Acetanilide are typical standards used to verify the digestion procedure. Alternatively, other organic nitrogen containing standards can be used.

Recommended accessories:

- Analytical balance.
- TripleScrubECO K-415 for removal of harmful vapours or a water jet pump.
- Digestion caps for unused positions (Order No: 040049).
- Digestion rods for boiling large volume liquid samples (Order No: 043087).
- Additional sample tubes, 300 mL, Qty: 20 (Order No: 11059690).
- Rack stand to avoid placing sample tubes on the benchtop (Order No: 11058659).

Additional application tools:

- Kjeldahl Guide. Comprehensive guide covering aspects of the theoretical and practical knowhow (Order No: 11055033).
- Kjeldahl Practice Guide. Provides theoretical background information, useful hints and calculation tables for daily routine work (Order No: 11592548).

Core messages to our customers

BUCHI creates added value

“Quality in your hands” is the guiding principle that shapes our philosophy and our actions. It challenges us to provide outstanding services that are precisely tailored to your needs. This means that we must stay in close contact with our customers. That is why we keep in touch and continue to work very hard to understand you and your business even better.

We help you by providing high-quality products, systems, solutions, applications and services that offer you added value. This allows you to focus entirely on your processes and your work.

Competent

We have the technological expertise and decades of experience needed to provide competent support and work with you to continually improve our services.

Reliable

We guarantee the quality and functionality of our equipment and will continue to help you quickly and efficiently whenever something does not operate to your satisfaction.

Safe

By collaborating closely with you, we do everything in our power to make our products, systems, solutions, applications and services as safe as possible for people and the environment.

Cost-effective

We strive to create a high level of economic benefit and maximum added value for you.

Global

As an international family-owned business with own subsidiaries and qualified distributors, we have a presence wherever you are located.

Easy

We support you by providing carefully designed solutions as well as instruments and systems that are easy to operate.

Sustainable

We support environmentally friendly processes and manufacture products that have a long service life. We utilize advanced technologies to leave the smallest environmental footprint possible.

We are represented by more than 100 distribution partners worldwide.
