

Mini Spray Dryer S-300

Pre-installation Checklist

The following checklist will assist you in site preparation for your BUCHI instrument. Careful attention to the requirements presented in this document will help simplify instrument installation and ensure that the instrument operates as it was designed.

Mini Spray Dryer S-300

Pre-installation checklist

All appropriate items in this checklist must be completed, signed and returned to BUCHI. Return your checklist as soon as your laboratory is ready and functional for prompt installation of your Mini Spray Dryer S-300. If you are performing self-installation, please check the box for self-installation on page 4 and return the form to BUCHI.

Environmental requirements

Place the Mini Spray Dryer S-300 in well ventilated area.

Ambient temperature of 5 °C to 35 °C.

Relative humidity $\leq$ 80% (up to 31 °C).

Space requirements

Enough space as defined below including clearance (Width x Depth x Height; clearance on Width and Depth; measures in mm):

For a free-standing Mini Spray Dryer S-300: 620 x 640 x 1052; clearance 100.

For a Mini Spray Dryer S-300 on the optional trolley: 620 x 640 x 1612; clearance 100.

For a Mini Spray Dryer S-300 on the Inert Loop S-395: 705 x 660 x 1939; clearance 300.

For an optional Dehumidifier S-396: 450 x 373 x 609; clearance 200.

Location of the unit

The unit must be installed on a clean, stable and level surface.

When working in open mode, it is preferable to place the end of the exhaust tube into a fume hood / extraction point.

Power requirements

Each item and accessory requires its own standard 200–230 V $\pm$ 10% 50/60 Hz main outlet socket. Standard cables and plugs are supplied.

Core messages to our customers

BUCHI creates added value

“Quality in your hands” is the guiding principle that shapes our philosophy and our actions. It challenges us to provide outstanding services that are precisely tailored to your needs. This means that we must stay in close contact with our customers. That is why we keep in touch and continue to work very hard to understand you and your business even better.

We help you by providing high-quality products, systems, solutions, applications and services that offer you added value. This allows you to focus entirely on your processes and your work.

Competent

We have the technological expertise and decades of experience needed to provide competent support and work with you to continually improve our services.

Reliable

We guarantee the quality and functionality of our equipment and will continue to help you quickly and efficiently whenever something does not operate to your satisfaction.

Safe

By collaborating closely with you, we do everything in our power to make our products, systems, solutions, applications and services as safe as possible for people and the environment.

Cost-effective

We strive to create a high level of economic benefit and maximum added value for you.

Global

As an international family-owned business with own subsidiaries and qualified distributors, we have a presence wherever you are located.

Easy

We support you by providing carefully designed solutions as well as instruments and systems that are easy to operate.

Sustainable

We support environmentally friendly processes and manufacture products that have a long service life. We utilize advanced technologies to leave the smallest environmental footprint possible.

We are represented by more than 100 distribution partners worldwide.
